

Sewing 1/4" guides

FOR QUILTERS

1/4" SEAMS

Practice your quarter inch seam allowance.

Using the line as your edge guide, stitch on either side with a 1/4" seam allowance.

Make any adjustments to your needle position or pressure foot if needed to correct.

STRAIGHT LINES & CORNERS

Practice your straight line stitching and corners.

Stitch on the line. At the corners, keep your needle in the down position. Lift the presser foot. Pivot the paper to the direction you need to go, lower pressure foot. Continue stitching.

1/4" SEAMS or STRAIGHT LINE & CORNERS

Practice your quarter inch seam allowance. Using the line as your edge guide, stitch on either side with a 1/4" seam allowance.

Straight line & Corners. Stitch on the line, leaving needle down- presser foot up, pivot and continue.

STRAIGHT LINES & CORNERS

Practice your straight line stitching and corners.

Stitch on the line. At the corners, keep your needle in the down position. Lift the presser foot. Pivot the paper to the direction you need to go, lower pressure foot. Continue stitching.

CURVES

Practice your curve stitching.

Turn the paper every few stitches or when needed. Leave the needle in the down position before making any adjustments to the paper. Adjust your stitch length if needed.
